

IN THE DRAWINGS

The attached two annotated sheets of drawings include changes to Figs. 1-6. The two replacement sheets, which includes Figs. 1-6, replace the original sheets including Figs. 1-6.

Attachments: 2 Replacement Sheets

2 Annotated Sheets

REMARKS/ARGUMENTS

The present amendment makes minor amendments to the present application.

As an initial matter, Applicants gratefully acknowledge the February 19, 2010 Notice of Allowance allowing claims 22-44.

In the Notice of Allowance, the Office Action also objected to the claimed electrode not being shown in the drawings. Applicant also appreciate the recent courtesies extended by the Examiner in discussing this objection with Applicant's representative by telephone. In accordance with that discussion, Applicant now submits two amended drawing sheets in which Figures 1-6 have been amended to show the electrodes 7 consistent with the specification. The new reference element 7 for the electrodes has also been added to the specification at specification page 9 with a notation that the placement of the electrodes is merely exemplary and not intended to be exact. No new matter has been added by these drawing changes. See, e.g., support at specification page 5, lines 10-11 and page 9, lines 2-3. Accordingly, Applicant submit that the objection to the drawings has been overcome.

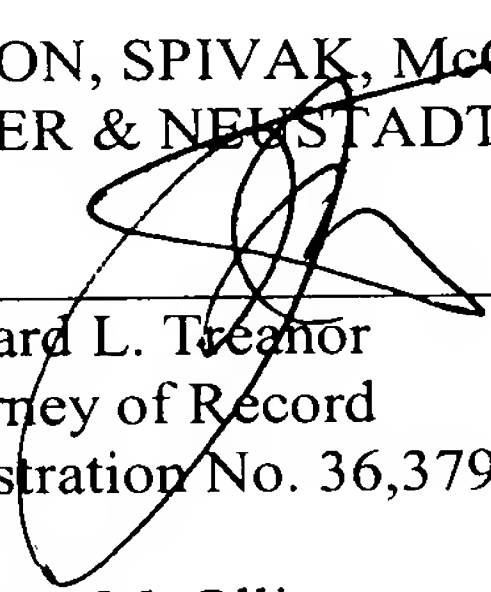

In addition, claim 38 has been amended in an editorial, non-limiting manner, adding the words "in the range of between" and deleting "less than or equal to". This corrects a transcription error. Support for the amendment is found in at least original claim 6.

Applicant respectfully submit that no new matter has been introduced to the claims

through such amendments, and that these amendments should be entered prior to issuance of  
this application as a patent.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, L.L.P.
